Lamp Black
Warm White

Brilliant

There are a lot of colors and some are used in very small amounts. Feel free to substitute with a color that is closest on the DecoArt Color Chart found on their website if you are missing a color

SUPPLIES

The Shaker box that I used is the small bentwood box from DePalma's Custom Woodcrafts (email depalmascw@gmail.com) The top measures approximately 4-3/4" x 7-1/2" and is about 3-1/2" high. They make them in several sizes and this pattern could be enlarged to fit any one of them. I used brushes from my everyday collection – a variety of small angled flats, rounds and fine liners for details. You will need a sea sponge to apply the paint to the edge of the lid. The Sampler Surfaces I found at Hobby Lobby
